

**BID ADDENDUM: GAAL001**

**BID NUMBER: GAAL099/2022/2023**

**DESCRIPTION: PROVISION FOR SUPPLY AND DISPATCH OF AVIATION FUEL.**

Enq.: Mr S.J Ramatjie

Email: [scmgroup@gaal.co.za](mailto:scmgroup@gaal.co.za)

Tel.: 087-291-1088

The service provider, with own aviation storage facility, is required to supply JET A1 and AVGAS to aircraft operating at Polokwane International Airport with the following amendments to the original bid document:

1.1(b) Provide AVGAS using a stainless-steel aviation approved trailer or an aviation approved truck to meet the demand of aircraft wishing to refuel. (List of aircraft using the airport and which may request AVGAS fuel is available on request).

(c) Provide JET A1 using an aviation approved truck to meet the demand of aircraft wishing to refuel. (List of aircraft using the airport and which may request JET A1 fuel is available on request).

(i) Service provider must conduct environmental impact and continue performing environmental assessment to the area and the systems and provide the report to airport authority – **exclusion from the specification requirements.**

1.2 (g) Liability Insurance cover for a minimum of R 5, 000, 000.00.

## 2. Pricing

Service Providers must specify an amount in Rands/Cents per litre (JET A1 and AVGAS) sold which is to be benefited by GAAL as part of this contract, e.g. for each litre sold at the airport, how much (R/c) will the service provider pay to GAAL. Notwithstanding the payment due to GAAL as fuel levy (R/C per litre

sold), GAAL will regulate the fuel price per litre sold at Polokwane International Airport to ensure that the Service provider's fuel price per litre (AVGAS and JET A1) sold at Polokwane International Airport, shall be competitive compared to fuel price sold in Gauteng airports.
